

# VOLTERRA FIETTA

The public international law firm

## INTERNSHIP PROGRAMME

### GUIDANCE FOR APPLICANTS

Volterra Fietta operates a popular internship programme. A significant number of our associate team participated in our internship programme before taking up associate roles.

We look to involve our interns in a wide range of public international law work. Interns are typically involved in a variety of substantive advisory and dispute resolution matters during their time with us. This includes State-to-State public international law and investment treaty work. The firm also regularly has a number of commercial arbitration cases, typically acting for or against governments and State enterprises in the energy, mining, telecommunications and finance sectors.

Most Internships last six months and are on a full-time basis only. Interns work as part of the VF team.

Successful applicants will have at least one university degree in law and a proven capability in relevant subjects, such as public international law, international dispute resolution and international arbitration. Candidates are assessed by our recruitment committee. Preference is given to applicants who have also completed a post-graduate degree specialised in public international law (such as a masters or a doctorate) and who have gained practical work experience in the field of public international law or international arbitration (for example, at an international organisation, an international court or tribunal or a law firm).
